

CLAUDIA S. MILLER, M.D., M.S.

*Professor, Occupational and Environmental Medicine
Assistant Dean, MD/MPH Program, School of Medicine
Vice Chair, Community Medicine, Department of Family and Community Medicine
Director of South Texas Environmental Education & Research (STEER) Program
The University of Texas Health Science Center at San Antonio
7703 Floyd Curl Drive (MCS 222)
San Antonio, Texas 78229-3900
MillerCS@uthscsa.edu*

BIBLIOGRAPHY

Books and Chapters (No attachments)

Books

Ashford NA, **Miller CS**: *Chemical Exposures: Low Levels and High Stakes*. Second edition. New York, John Wiley and Sons, Inc., 1998.

Ashford NA, **Miller CS**: *Chemical Exposures: Low Levels and High Stakes*. New York, Van Nostrand-Reinhold, 1991.

Chapters (No attachments)

Bunegin L, **Miller CS**. Cerebrohemodynamics and cognitive function during low-level VOC exposure. In: Proceedings of the International Symposium on Indoor Air Quality and Health Hazards. Murakami S, Schonwalder C, Ishikawa S, Miller C, eds., 2:56-65, 2003.

Miller CS: Chemical hypersensitivity and multiple chemical hypersensitivity syndrome. In *Handbook of Olfaction and Gustation*, 2nd edition. Doty R, ed., New York, Marcel Dekker, Inc., 2003.

Leading text on Taste and Smell, by Richard Doty, Professor, University of Pennsylvania.

Miller CS, Ashford NA: Multiple Chemical Intolerance and Indoor Air Quality. In *Indoor Air Quality Handbook*. Spengler J, Samet J, McCarthy J, eds., New York, McGraw-Hill, Inc., 2000.

Considered the most comprehensive handbook on indoor air quality. Editors are professors of the Harvard School of Public Health and The Johns Hopkins University School of Public Health.

Papers Published or In Press (There are no copies available for the articles in yellow highlights.)

- 1) Palmer RF, Walker T, Mandell, D, Bayles, B, **Miller CS**: Socioeconomic factors do not explain lowered autism rates among Hispanics in Texas. *American Journal of Public Health* (Forthcoming) 2009.
- 2) **Miller CS**: Environmental exposures and ASDs: Making the Connection, Autism Society of America, [homepage on the Internet] 2006. Available from: http://www.autism-society.org/site/PageServer?pagename=research_envirohealth_articles.

Claudia S. Miller, M.D., M.S.

- 3) Palmer RF, Blanchard, S, Stein, Z, Mandell, D, **Miller CS**: Environmental mercury release, special education rates, and autism disorder: an ecological study of Texas. *Health & Place* 12(2):203-209. 2006.
- 4) Katerndahl D, **Miller CS**: Chemical intolerance among women with panic attacks in a family medicine clinic. *Texas Family Physician* 56(4): 47-50, Oct-Dec 2005.
- 5) **Miller CS**: The Compelling Anomaly of Chemical Intolerance. In *The Role of Neural Plasticity in Chemical Intolerance*, Annals of the New York Academy of Sciences, Vol. 933. Sorg B, Bell I, eds., New York, The New York Academy of Sciences, 2001.
- 6) Bunegin L, Mitzel HC, **Miller CS**, Gelineau JF, Tolstykh GP: Cognitive performance and cerebrohemodynamics associated with the Persian Gulf Syndrome. *Toxicology and Industrial Health* 17:128-137, 2001.
- 7) **Miller CS**: Toxicant-induced loss of tolerance. *Journal of Nutritional and Environmental Medicine* 11(3):181-204, 2001.
- 8) Ashford NA, **Miller CS**: Niedrigschwellige Chemikalien-Expositionen: Herausforderung für Wissenschaft und Politik. In *Kinder-Gesundheit-Umwelt-Krankheit*. Bilger J, Petersen E, eds., Frankfurt am Main, Mabuse-Verlag GmbH, 87-94, 2000.
- 9) **Miller CS**: Toxicant-induced loss of tolerance: Mechanisms of action of addictive stimuli. *Addiction* 96(1):115-139, 2000.
- 10) *Invited peer-reviewed paper for the millennial edition of the journal Addiction, devoted to theories of addiction. This paper served as the background white paper for the 2005 NIEHS/NIAAA/NIOH conference "Addiction and Chemical Intolerance: A Shared Etiology?"*
- 11) Nawab SS, **Miller CS**, Dale JK, Greenberg BD, Friedman TC, Straus SE, Chrousos GP, Rosenthal NE: Self-reported sensitivity to chemical exposures in five clinical populations and healthy controls. *Psychiatry Research* 95(1):67-74, 2000.
- 12) **Miller CS**, Prihoda TJ: Eine kontrollierte vergleichende Studie von Symptomen und chemischer Unverträglichkeit, die von Golfkriegs-Veteranen, Personen mit Implantaten und Personen mit multipler chemischer Sensitivität berichtet werden. Chemikalienunverträglichkeit, *Umweltmedizin-gerellschaft* 13:119-133, 2000.
- 13) Prasad V, Scotch R, Chaudhuri AR, et al- Interactions of Bovine Brain Tubulin with Pyridostigmine Bromine and N,N'-Diethyl-m-Toluamide. *Neurochemical Research* 25(1):19-25, 2000.
- 14) Ashford NA, **Miller CS**: Die sozialen und politischen Implikationen geringfügiger Chemikalienexpositionen. *Umweltbelastung und Gesundheit*, 53-58, Juni 9, 1999.
- 15) ***Miller CS**: Nachweis für eine neue Theorie der durch chemische Substanzen ausgelassenen Krankheiten: Giftstoffinduzierter toleranzverlust (TILT). *Umweltbelastung und Gesundheit*,

Claudia S. Miller, M.D., M.S.

59-77, Juni 9, 1999.

- 16) **Miller CS**: Are we on the threshold of a new theory of disease? Toxicant-induced loss of tolerance and its relationship to addiction and abidction. *Toxicology and Industrial Health* 15:284-294, 1999.
- 17) **Miller CS, Prihoda TJ**: The Environmental Exposure and Sensitivity Inventory (EESI): a standardized approach for measuring chemical intolerances for research and clinical applications. *Toxicology and Industrial Health* 15:370-385, 1999.
- 18) **Miller CS, Prihoda TJ**: A controlled comparison of symptoms and chemical intolerances reported by Gulf War veterans, implant recipients and persons with multiple chemical sensitivity. *Toxicology and Industrial Health* 15:386-397, 1999.
- 19) **Miller CS, Gammage RB, Jankovic JT**: Exacerbation of chemical sensitivity: a case study. *Toxicology and Industrial Health* 15:398-402, 1999.
- 20) **Rogers WR, Miller CS, Bunegin L**: A rat model of neurobehavioral sensitization to toluene. *Toxicology and Industrial Health* 15:356-369, 1999.
- 21) **Ashford NA, Miller CS**: Low-level chemical exposures: a challenge for science and policy. *Environmental Science and Technology* 32(21):508A-509A, November 1, 1998.
- 22) **Miller CS**: Toxicant-induced loss of tolerance: an emerging theory of disease? *Environmental Health Perspectives* 105(Suppl. 2):445-453, March, 1997.
- 23) **Miller CS, Ashford NA, Doty R, Lamielle M, Otto D, Rahill A, Wallace L**: Empirical approaches for the investigation of toxicant-induced loss of tolerance. *Environmental Health Perspectives* 105(2):515-519, March, 1997.
- 24) **Ashford NA, Miller CS**: Low-level chemical sensitivity: current perspectives. *International Archives of Occupational and Environmental Health* 68(6):367-376, 1996.
- 25) **Miller CS**: Chemical sensitivity: symptom, syndrome or mechanism for disease? *Toxicology* 111:69-86, 1996.
- 26) **Overstreet DH, Miller CS, Janowsky DS, Russell RW**: A potential animal model of multiple chemical sensitivity with cholinergic supersensitivity. *Toxicology* 111:119-134, 1996.
- 27) **Gammage RB, Miller CS, Jankovic JT**: Exacerbation of chemical sensitivity associated with new construction: a case study. *Proceedings of Indoor Air '96*, 2:291-296, 1996.
- 28) **Bell IR, Miller CS, Schwartz GE, Peterson JM, Amend D**: Neuropsychiatric and somatic characteristics of young adults with and without self-reported chemical odor intolerance and chemical sensitivity. *Archives of Environmental Health* 51(1):9-21, 1996.
- 29) **Sikorski EE, Kipen HM, Selner JC, Miller CS, Rodgers KE**: Roundtable summary: the question of multiple chemical sensitivity. *Fundamental and Applied Toxicology* 24:22-28, 1995.

Claudia S. Miller, M.D., M.S.

- 30) **Miller CS**, Mitzel HC: Chemical sensitivity attributed to pesticide exposure versus remodeling. *Archives of Environmental Health* 50(2):119-129, March-April, 1995.
- 31) Bell IR, Schwartz GE, Amend D, Peterson JM, Kaszniak AW, **Miller CS**: Psychological characteristics and subjective intolerance for xenobiotic agents of normal young adults with trait shyness and defensiveness: a Parkinsonian-like personality type? *Journal of Nervous and Mental Disorders* 182(7):367-374, 1994.
- 32) Ashford NA, **Miller CS**: Chemical sensitivity: an emerging public health and environmental problem. *Environmental Impact Assessment Review* 14(3):451-467, 1994.
- 33) **Miller CS**, Ashford, NA: The hypersusceptible individual. *Proceedings of Indoor Air '93* 1:549-554, 1993.
- 34) Ashford NA, **Miller CS**: Case definitions for multiple chemical sensitivity. *Multiple Chemical Sensitivities: Addendum to Biologic Markers in Immunotoxicology*. Washington, D.C., National Academy Press, pp 41-46, 1992.
- 35) **Miller CS**, Ashford NA: Allergy and multiple chemical sensitivities distinguished. *Multiple Chemical Sensitivities: Addendum to Biologic Markers in Immunotoxicology*. Washington, D.C., National Academy Press, pp 47-64, 1992.
- 36) **Miller CS**, Ashford NA: Possible mechanisms for multiple chemical sensitivities: the limbic system and others. *Multiple Chemical Sensitivities: Addendum to Biologic Markers in Immunotoxicology*. Washington, D.C., National Academy Press, pp 139-50, 1992.
- 37) Ashford NA, **Miller CS**: Chemical sensitivity and low level exposures: scientific and policy considerations. In *Quality of the Indoor Environment*. London, Lonsdale Press Ltd., 1992.
- 38) **Miller CS**: Possible models for multiple chemical sensitivity: conceptual issues and role of the limbic system. Advancing the Understanding of Multiple Chemical Sensitivity, Association of Occupational and Environmental Clinics. *Toxicology and Industrial Health* 8(4):181-202, 1992.
- 39) Bell IR, **Miller CS**, Schwartz GE: An olfactory-limbic model of multiple chemical sensitivity syndrome: possible relationships to kindling and affective spectrum disorders. *Biological Psychiatry* 32:218-242, 1992.
- Reviews**
- 40) *Miller CS, Ashford, NA: Chemical sensitivity: perspectives from North America and Europe. *Proceedings of the Conference on Health Buildings '95: An International Conference on Healthy Buildings in Mild Climates* 1:49-67, 1995.
- 41) ***Miller CS**: White paper: chemical sensitivity: history and phenomenology. *Toxicology and Industrial Health* 10(4-5):253-276, 1994.
- 42) *Ashford NA, **Miller CS**: *Chemical Sensitivity: A Report to the New Jersey State Department of Health*. December, 1989.
